

Maths L1-2 Bridging Course

Course overview

Do you want to improve your maths skills? Did maths at school leave you confused? If you believe you would benefit from improved maths skills, whether this is to improve your job prospects, help your children with their homework, or as a stepping-stone to further study this will be the ideal starting point. We can help you realise your maths potential.

This course follows on from the Maths Level 1 course.

What will I study?

On this course you will be introduced to:

- Multiplication and division with whole numbers and working with large numbers
- Fractions, decimals and percentages
- Measurement
- Shapes and space
- Working with data
- Probability
- Perimeter, area and volume
- Statistics

Assessment method

Various assessment methods, including on-line and paper-based assessments, individual, group work and communication activities, and given feedback on your progress. Throughout the course you will also receive feedback from your tutor and learn the skills to self-reflect and evaluate your progress.

Entry requirements

You will need to complete a maths level 1 course prior to enrolling on this course to ensure this course is at a suitable level for your needs.

What should I bring with me?

You will need to take notes so bring along your preferred tools such as pen/paper or electronic device. An A4 ringbinder folder and simple calculator will also be essential.

Key information

This course will take place on site. In the event of unexpected circumstances that prevent on site delivery, sessions will take place online via Microsoft Teams.

Possible next steps

Following the successful completion of this course, you will be supported to enrol on to the most suitable course for you.
