

Multiply- Family Learning Math for Parents

Course overview

This course is designed for parents/grandparents/caregivers whose children attend school. This course will help you improve your math skills and feel more confident when assisting your child with his or her math learning.

What will I study?

You will:

- Be better equipped to support your children with their numerical development.
- Increase your understanding of Math.
- Be encouraged to assess your own numeracy needs.
- Develop your own mathematical skills.
- Course content
 - Understanding Nutrition – Making Pie Charts
 - Money Management – Making a Money Saving Jar
 - Basic Geometry - Making a Greeting Card

Assessment method

There will be learning activities for you to complete to assess your understanding and show your progress.

Entry requirements

This course is for parents/ carers of all levels.

What should I bring with me?

You will need to bring a pen, paper or any other note-taking device for this session. You will need to have access to a mobile phone or any other electronic device. Please speak to your teacher if you have issues with online access.

Key information

This course will take place at the following locations;
On site at the Adult College, at your child's school or in a local Community Centre.

In some unexpected situations, sessions may take place online via Microsoft Teams and telephone support. You will complete Individual Learning Plans to track your progress and goals and be provided with information advice and guidance throughout the course.

Possible next steps
